

include/CTL/algorithm  
/heap\_sort.h

```
graph TD; A["include/CTL/algorithm/heap_sort.h"] --> B["stdbool.h"]; A --> C["stddef.h"];
```

The diagram illustrates a header file dependency. A central box at the top represents the file `include/CTL/algorithm/heap_sort.h`. Two blue arrows originate from the bottom of this box, pointing downwards to two separate boxes below. The left box contains the text `stdbool.h` and the right box contains the text `stddef.h`, indicating that the top-level header file includes both of these standard C headers.
